

POOL TRICKS FOR DOGS!

This one-time 90-minute group class exposes your dog to the opportunity to learn simple fun pool tricks! Not all dogs may want to try each trick, dogs have trick aptitude that we need to consider, but you and your dog will learn how to teach each of these tricks! Dogs that enroll in the class have already been to swim class or their dogs love to swim in clear water.

Swim Through a Hoop

We start with a simple trick swim through a hoop

A simple setup for
swimming through the
hoop

Finished Hoop Trick

Floating on a Raft

Another trick that is simple for many dogs is floating on a raft

For smaller dogs we have a floating car!
Your dog will learn to drive, sort of

Dogs get extra applause from classmates for voguing it and of course the cuteness factor will be an important variable.

Border Collie Particle surfing solo!

Now it gets serious. Dead serious!

Death-Defying Pool Noodle Trick:

Here Tim bravely demos the death-defying trick!
The jump over a person holding a pool noodle trick!

This is why we call this trick death-
defying

Fetch a Human:

Moving on to another trick called Fetch a Human. There are two variations of this trick the life vest and the life preserver. Dogs are aided in fetching the human by a toy that is tied to the vest or the preserver, thus making it fun and easy to fetch a human!

Particle fetching Tim.

The training process is simple person floats with vest and encourages play with the wubba toy attached to the vest.

Finished product! Tim has been fetched!

Now the same thing with a life preserver!

Tim has been fetched with the life preserver all the way to the ramp!

Dog Water Polo

A human supports a floating goal while a dog “herds” a water polo ball in for a score!

Raising the stakes Particle is going for two balls in the goal

Buoy Weave Trick

Dogs are asked to weave a set of four buoys as they would dog agility weave poles. Dogs enter to the right of the first buoy and then alternate all four. Here is the set up -

Particle speed weaving for a wubba toy lure.

To add a challenge the buoys move, ocean-like, making navigating the ideal path more complex, compass and GPS map highly recommended.

Another angle of the lure technique-

Navigate the Big Pool Slide
Dogs can learn to navigate our pool slide by climbing up it and then sliding down the slide.

We have a little safety landing pad at the bottom of the slide.
It can also double as a raft:

**We hope you love our dog pool tricks
class as much as we do. Please tell
your friends and family!**

Happy Pool Trick Training!
