Create a Floating Motivational Toy for Your Water-Loving Pup! 🐾🌊

Want to make pool time or dock jumping training extra fun for your furry friend? Creating a floating motivational toy can be a game-changer! Here's how you can find the perfect splash-tastic toy for your dog. 🐶💦

Floating Toy Options:

1. **Stuffable Toys: For food-motivated pups, choose a floating toy that can be stuffed with treats. This adds an extra incentive for your dog to dive in and fetch. CleanRun.com and Amazon both**

carry these toys which have zipper or velcro openings your dog can eat out of.

2. Squeaky Toys: Squeaky toys are a hit with many dogs. The sound keeps them excited and eager to play, making them perfect for dock jumping training sessions.
3. Visually Interesting Toys: Wubba toys and other brightly colored, visually stimulating toys are great for capturing your dog's attention. Their unique shapes and colors make them easy to spot in the water.
4. Bumpers: some dogs love this classic dog dock jumping toy so be sure to evaluate if your dog is one of them!

Training Tip:

To keep your dog's interest high, make sure this special toy is only available during training sessions. This way, it remains a highly anticipated event to play with the "special" toy that adds excitement to every splash and leap. 🌟
